

Mission Statements

Whiteside County Health Department:

To improve the health status of Whiteside County through prevention, collaboration and clinical educational and regulatory interventions.

Whiteside County Community Health Clinic:

To provide primary and preventative medical, dental, and behavioral health care across the region and to receive individuals from all life cycles with dignity and respect in a caring environment.

Whiteside County Animal Control:

To protect the county from rabies through the enforcement of leash laws and the management of threatening dogs.
