If an EAID is not found, the Officer shall take reasonable steps to notify a Sponsor of the description and sex of the cat, and if available, the address or location where the cat was trapped. The Sponsor shall then take all appropriate and available steps to identify the Feral Cat Colony Caretaker of this cat or a Feral Cat Colony Caretaker who will take responsibility for managing this cat.

(2) If the Feral Cat Colony Caretaker is not able to immediately take custody of the cat, the Officer shall transport the cat to the Sponsoring Humane Society's Animal Shelter or nearest Animal Shelter. The Feral Cat Colony Caretaker shall be responsible for retrieving the cat from the Shelter within three (3) business days or advising the Shelter if he or she does not intend to retrieve the cat.

(3) The Department, its designee, or a licensed veterinarian, shall be the only persons permitted to destroy a Feral Cat.

(4) No person may knowingly poison or cause to be poisoned, or cause the destruction by any other means, of a Feral Cat. Animal Care, Subsection (k), the only exception will be by written permit from the Illinois Department of Agriculture for the purpose of controlling diseases transmissible to humans or other animals and only when all other methods and means have been exhausted. Such a permit shall name a person or persons conducting the poisoning, specify the products to be used, give the boundaries of the area involved and specify the precautionary measures to be employed to insure the safety of humans and other animals. Any drugs used for the euthanasia shall be by or under the direction of a licensed veterinarian.

Sec. 6-43. Ordinance Enforcement.

(a) The Department or its designee, in order to encourage the stabilization of the Feral Cat population in Whiteside County, shall have the following rights:

(1) The right to trap in a humane manner and remove any cats that (1) have not been vaccinated against rabies or which are demonstrating signs of the disease, (2) are not spayed or neutered, (3) are not identifiable through an EAID as belonging to a Feral Cat Colony that has a Sponsor and a Feral Cat Colony Caretaker, or (4) for public health or public safety concerns.

If no issue of public health or safety exists, or if any issues of public health and safety can be addressed by the removal and relocation of the cat to another area, a Sponsor can arrange to have the cat spayed or neutered, ear tipped, and vaccinated against rabies by a licensed veterinarian, and have an EAID inserted. The Sponsor may then arrange for the cat to be adopted or placed in a Feral Cat Colony.

If a Feral Cat is demonstrating signs of having rabies, or has an illness or injury that presents an imminent danger to the public health or safety, or to its own person, that cat shall be humanely destroyed under the supervision of the PH Administrator or his/her designee (preferably an infectious disease authority).

(2) The right to direct that a Sponsor remove a Feral Cat that is creating a nuisance if the Sponsor has failed to adequately resolve the nuisance within 30 days after being given written notice thereof. In the event that the Department directs the Sponsor to remove the cat, the Sponsor shall have 30 days to do so. Failure of the Sponsor to remove the cat within said time period (or such longer time as the Department may specify) shall constitute grounds for the Department to remove the cat.

(b) Animal Control Officers (“ACO”) or police officers shall investigate any nuisance complaint allegedly caused by a Feral Cat.

(1) In the event that an ACO or police officer finds that a Feral Cat or Feral Cat Colony has created a nuisance, the ACO or police officer shall advise the Department and Sponsor in writing of the nuisance.

(2) The Sponsor shall have the right to review the matter with the Administrator of the Department. If the Sponsor is not able to satisfy the Administrator that a nuisance is not occurring, the Sponsor shall have 30 days to comply with the Administrator’s direction with respect to correcting the nuisance. If the Sponsor fails to correct the nuisance, the Department shall have the right to remove the cat.

(c) If a Sponsor fails to perform its responsibilities as defined in Section 6-42(c) of this Ordinance, the Department may notify the Sponsor that it must comply with the requirements of This Ordinance within 30 days. If the Sponsor fails to do so, the Department may remove this Sponsor from the list of Department approved Sponsors, and may reassign the Feral Cat Colonies from this Sponsor to another Sponsor.

(d) If a Feral Cat Colony Caretaker regularly fails to comply with this Ordinance, the Sponsor may notify the Feral Cat Colony Caretaker that he or she has 30 days to make all Reasonable efforts to fulfill the responsibilities defined in Section 6-42(d) of this Ordinance. If the Feral Cat Colony Caretaker fails to comply within that time period, the Sponsor may identify and obtain replacement Feral Cat Colony Caretakers for the Feral Cat Colonies of the non-compliant Feral Cat Colony Caretaker. If no other Feral Cat Colony Caretaker can be found within 30 days, the Sponsor shall notify the Department, and the Department may humanely remove all, or parts of, the Feral Cat Colonies and dispose of them in accordance with Section

(e) Feral Cats who were spayed or neutered and vaccinated for rabies prior to the date on which this Ordinance became effective, but did not have an EAID inserted or were marked as Feral by some indication other than a left eartip, such as but not limited to a tattoo, shall be deemed to be in compliance with this Ordinance, if all other requirements in Section 6-42(d) are being met by their Feral Cat Colony Caretaker. Feral Cat Colony Caretakers shall take all appropriate and available steps to bring these cats into compliance with the provisions of this ordinance within three years of its enactment, or upon revaccination of the cats for rabies, whichever comes first.
